DETAILED ACTION

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

2. Claims 1-15 are allowed.

3. This application is in condition for allowance except for the following formal matters:

(A) The amendments to the specification have not been entered because the instant specification does not include paragraph numbering and because pages 19-20 are not in the file. The only specification in the application includes 16 pages. It appears that applicants should submit a substitute specification including the desired changes, which changes appear to contain no new matter.

(B) The use of the term "probe" in claim 1, lines 13, 16, claim 4, line 1, claim 8, line 2, claim 11, line 2, claim 14, line 2 and in other places such as in lines 5-6 of the Abstract and in the specification (e.g. page 9, penultimate line) is objected to as being inconsistent with art-related terms. The term "shaft" or "piston rod" should be used in reference to element 64 of instant Fig. 2.

Art Unit: 3683

(C) The use of the trademark "Delrin" on page 10, penultimate line is noted.

Pursuant to MPEP 608.01(v), the trademark should be capitalized wherever it appears and should be accompanied by its generic terminology.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

4. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

5. Any inquiry concerning this communication should be directed to Exmr Butler at telephone number (703) 308-2575.
